PROFILE

Computer Information Systems undergraduate focused on full-stack web development, with hands-on experience building web applications using React.js, Node.js, Express.js, Laravel, PHP, and PostgreSQL. Built and contributed to projects involving REST APIs, authentication, database design, AI-powered recommendations, and geospatial data synchronization. Comfortable working across frontend, backend, and database layers in collaborative development environments.

EDUCATION

B.Sc. (Hons) in Computing and Information Systems **2024 – Present**

Sabaragamuwa University of Sri Lanka

Undergraduate

G.C.E. Advanced Level – Physical Science Stream **2022**

Dharmaraja College – Kandy

PROJECTS

ElderExpert **Group Project**

AI-Powered Expert Knowledge Sharing Platform

Ongoing

- **Description:** An AI-powered platform designed to connect retired professionals with companies and young professionals. The platform enables companies to hire experienced experts for project-based work while allowing students and junior professionals to receive mentorship and knowledge.
- **My Contribution:** Developed core backend functionality for an AI-powered expert knowledge-sharing platform by implementing authentication, REST APIs, database integration, and communication between system components using Node.js, PostgreSQL, React, and Firebase.
- **Technologies:** React, Node.js, PostgreSQL, REST API, Git, Firebase

CeyWork **Group Project**

Human Resource Management System

Ongoing

- **Description:** A Human Resource Management System designed to manage employee information and streamline HR-related workflows. The platform provides functionalities for managing employee data and supporting day-to-day human resource operations.
- **My Contribution:** Developed backend functionality for an HR management system by implementing Laravel/PHP APIs, MySQL database relationships, CRUD operations, and employee workflow logic, supporting end-to-end system integration.
- **Technologies:** Laravel, PHP, MySQL, React.js, JavaScript

Federated Map Data-Sharing Protocol (FMDSP) **Group Project**

Federated Geospatial Data-Sharing Platform

- **Description:** Developing a federated protocol that enables independent map servers to discover, communicate, and synchronize geospatial data securely using open interoperability standards.
- **My Contribution:** Engineered components of a federated geospatial data-sharing platform by developing REST APIs, data synchronization mechanisms, database structures, and geospatial data management using Node.js, TypeScript, PostgreSQL/PostGIS, OGC API Features, and ActivityPub. synchronization, database design, and geospatial data management.
- **Technologies:** Node.js, TypeScript, PostgreSQL, PostGIS, OGC API Features, ActivityPub, REST API, Git

AI Fashion Recommendation System **Personal Project**

AI-Powered Clothing Recommendation Platform

Ongoing

- **Description:** Developing an AI-powered fashion platform where users can upload a photo and receive clothing recommendations based on their appearance, style, and available products in the system.
- **My Contribution:** Designing and developing the full-stack application, including image upload, user authentication, clothing product management, recommendation logic, and integration of AI-based image analysis with available fashion items.
- **Technologies:** React.js, Node.js, Express.js, PostgreSQL, JavaScript, AI/ML

TECHNICAL SKILLS

- **Languages:** Java, PHP, Python, JavaScript
- **Frameworks / Technologies:** React.js, Express.js, Laravel, Node.js
- **Web Technologies:** HTML, CSS, JavaScript
- **Mobile Development:** Flutter
- **Database Management:** MySQL, PostgreSQL, MongoDB
- **Version Control:** Git, GitHub
- **Design Tools:** Figma, Adobe Photoshop, Adobe Illustrate

SOFT SKILLS

- Leadership & Team Management
- Teamwork & Collaboration
- Problem Solving
- Communication
- Time Management
- Event Coordination & Organization
- Adaptability

VOLUNTEERING EXPERIENCE

Chairperson & Project Team Member

Rotaract Club – 2026

Sabaragamuwa University of Sri Lanka

Project: Rotaract Beacon – Ongoing

Leading and coordinating the project, contributing to its planning, development, and execution.

Graphic Designer & Volunteer

- *Rotaract Club – 2025–2026*

Sabaragamuwa University of Sri Lanka

Designed promotional materials, social media graphics, and other visual content for club activities and projects.

- *IEEE Student Branch – 2026*

Sabaragamuwa University of Sri Lanka

Supported IEEE activities as a volunteer and contributed to designing promotional and event-related materials.

- *comURS 2024*

Designed certificates and other visual materials for comURS 2024.

University Coordinator

Sasnaka Sansada – 2025

Sabaragamuwa University of Sri Lanka
